

SASPAC SMS SYSTEM

SASPAC has been a trusted name in education management since 1979 and is a leading developer of education management software.

The combination of ongoing research and development, together with our in-depth understanding of education management means that you can trust SASPAC to provide you with an effective management system.

SASPAC SMS offers a SMS gateway allowing you to effectively communicate with educators and parents.

SASPAC SMS consists of 2 components:

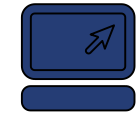

- ✓ Saspac SMS Server
- ✓ Saspac Messenger

SMS SYSTEM

Efficiency, Profitability, Simplicity

SMS COMMUNICATION SERVER

The SASPAC SMS Server forms the gateway which transmits the SMS messages to the cellular providers. It can be configured to run in manual or automatic mode - automatic mode sends messages, receives replies and notifications according to a user set schedule.

The following generated notifications are available:

- ✓ When a learner is registered as being absent
- ✓ When a learner misdemeanour is logged for all or only specified misdemeanours
- ✓ Outstanding school fees as per debtors ageing

The system also enables the sending of single, customized messages and keeps a complete log for reporting purposes.

SASPAC MESSENGER

SASPAC Messenger is the users interface to the messaging service, and enables both the sending and receiving of messages from/to multiple locations

Key Features:

- ✓ Send SMS to parents (filtering available)
- ✓ Groups (Educators, Parents and Other)
- ✓ Educators
- ✓ Others (custom cell phone numbers)

SASPAC Messenger allows recipients to reply to individual sender workstations, and has error reporting capabilities, enabling users to rectify problems with invalid cell phone numbers.

The system can also be configured to notify users when a new message arrives.
